

# Video Transfer & Copying

We're equipped to convert video from most old formats to modern DVDs and MP4 video.

(we are unable to handle U-matic or Betamax tapes at this time)

## VIDEO TRANSFER (from VHS, VHS-C, Super VHS, 8mm or HI-8 tape originals)

Tape Length*	Transfer Cost	MEDIA		
		DVD	Flash	Both
Up tp 1 hr. (min. charge)	\$15 ea.	\$1.00	\$9.00	\$10.00
1-2 hrs.	20 ea.	1.00	9.00	10.00
2-4 hrs.	30 ea.	2.00	9.00	11.00
4-6 hrs.	35 ea.	3.00	9.00	12.00

\* LENGTH = the running time of your tape; most VHS camcorders use standard (SP) speed and record up to 2 hours/ tape... but one VHS tape may hold up to 4 or even 6-hours — depending on recording speed that was used.

\*\* FLASH DRIVE: minimum size (8 GB) — up to 8 hours of video can be stored on one drive (MP4)

DVD: price includes handwritten label & protective paper sleeve. ADD \$1 for printed label & \$2 for movie-style case.

DUPLICATION: extra copies of individual videos (ordered at the time of transfer)

**DVD**: \$5.00 each

**FLASH DRIVE**: \$10 each

COLOR CORRECTION (if needed): if the entire tape is the same & correction can be done during transfer — NO CHARGE; custom color correction (scene-by-scene) requires editing...charged at \$20/hour

If you choose DVD — each tape is copied to a separate disc... but to save money — we can put several short tapes on one disc (add \$5 for each add'l tape added to a single disc)

## THINGS TO THINK ABOUT

**How are you going to view your new video transfers?**

- DVD player and television set: a traditional DVD will work fine.
- Smart phone, iPad, tablet or laptop: "MP-4" is best — state-of-the-art video files which combine high-quality video with small file size.
- Order BOTH — then you'll be ready for both options.

**Interested in EDITING?**

- DVD discs cannot be edited: the video is "fixed" on the disc, in the order it was recorded
- MP-4 files can be edited, re-ordered, shortened, etc. on your computer, tablet, iPad or even smartphone! You can download software for "video production" — to add music and graphics!

**Copyrighted recordings**: if you have home recordings to transfer — no problem; for copyrighted recordings which you have purchased, the law allows you to make ONE duplicate on a different medium (i.e. VHS to DVD): for such material -- we'll prepare ONE copy of your video for your own use, and return both recordings to you.

**READY TO ORDER??** Please [CLICK HERE](#) or e-mail [gwproductions@webonline.info](mailto:gwproductions@webonline.info) so we can discuss your project
