THINGS TO THINK ABOUT

How are you going to use your new audio transfers?

- Your CDs will play on any home, portable or auto CD player and most DVD players.
- MP3 files combine high-quality audio with small file size, and are ideal for sharing with friends, uploading to social media, etc.
- Order BOTH — then you'll be ready for both options.

READY TO ORDER?? Please [CONTACT US](#) so we can discuss your project!

COPYRIGHT: if you have home recordings to transfer — no problem; for copyrighted recordings (commercial records, CDs, etc.) which you have purchased, the law allows you to make ONE duplicate on a different medium (i.e. LP to CD or Cassette to CD); for such material -- we'll prepare *one* copy of your audio for your own use, and return both recordings to you.
